Profit Visions s.r.o. · LINK-V · IČO 28157141 · DIČ CZ28157141
Rybná 716/24, 110 00 Praha 1, Czech Republic · +420 732 532 495

Who is responsible

Profit Visions s.r.o., trading as LINK-V, is the controller for WebCompare purchase, activation and support data. Contact privacy@link-v.pro for privacy questions and requests.

What we process and why

We use your name or company name, email, billing address, applicable business and tax identifiers, and order and payment records to process your order, deliver licenses and provide purchase support (GDPR Art. 6(1)(b)). We retain required invoice and tax records to meet legal obligations (Art. 6(1)(c)). Billing details are required to process the order. When you activate a paid license, the app sends your license code and a device identifier to LINK-V to validate the license (Art. 6(1)(b)). Scan projects and results are stored locally. If you share a report or connect an external MCP client, you control what you share.

Payment and other recipients

Stripe processes card details and payment and fraud-prevention data. LINK-V uses its billing and email systems, hosting providers and accounting services as needed to complete purchases and meet accounting obligations. If personal data is transferred outside the EEA, applicable safeguards may include an adequacy decision or standard contractual clauses. Contact us for details or a copy of the applicable safeguards.

Marketing and retention

If you tick the optional marketing box, we use your email to send LINK-V product news and offers on the basis of consent (Art. 6(1)(a)). Withdraw consent through the unsubscribe link or by contacting us. We keep order, license and support records as needed to fulfill the contract and resolve related issues. Statutory billing records are retained for the applicable legal period. Marketing use ends when you unsubscribe or we stop sending the emails. We may keep a record of your choice to honor it.

Your rights

You may request access, correction, deletion, restriction or portability where applicable, object where the GDPR provides that right, and withdraw consent at any time. Contact privacy@link-v.pro. You may complain to the Czech data protection authority (ÚOOÚ) or another competent supervisory authority.
